Wiggins School Needs Volunteers To Build A Playground

The Ulysses S. Wiggins Elementary School located at 400 Mt. Vernon Street, Camden, New Jersey, needs volunteers to help build a new playground on Thursday, October 21, 2010 from 8:30 a.m. to 2:30 p.m. In conjunction with KaBOOM and SAP American, Wiggins School needs volunteers to help level the ground, set concrete footings and build the playground equipment from the ground up in one day.

No special skills are necessary, but volunteers must have a strong desire to help create a magical environment for students at Wiggins Elementary School. Parents and local community members will join with a hundred or more volunteers to transform the current playground into a “state of the art” play area.

The KaBOOM! playground build begins early in the morning with volunteers arriving at the site. Within hours, KaBoom! will lead volunteers in transforming the space to a playground in less than eight hours.

To register, call Ms. Elizabeth Green, at Wiggins Elementary School at (856) 966-5120 or the Camden Schools Office of Communications at 856-966-2649.
